EDUCATION

Wuhan Institute of Technology

Wuhan, China

Bachelor of Engineering in Computer Science and Technology

Feb. 2022 – Jan 2026

- Grade: 84% — Awards: First Class Scholarship for Academic Excellence (Ranked 1st in batch, 2025)

CERTIFICATIONS & LICENSES

SOC Level 1 Certificate

Mar. 2026

TryHackMe

- Security monitoring, log analysis, threat detection, incident investigation, and SOC workflows.
- TryHackMe certificate

Google Cybersecurity Professional Certificate

Sep. 2025

Google / Coursera

- SIEM monitoring, incident response, network traffic analysis, Python automation, and NIST security frameworks.
- Credly badge

Google IT Support Professional Certificate

Nov. 2025

Google / Coursera

- System administration, Active Directory, networking, and IT infrastructure troubleshooting.
- Credly badge

PROJECTS

Password Strength Meter | *Astro, JavaScript, CSS*

2024

- Client-side password strength estimator and leak checker that estimates entropy and likely crack times using a zxcvbn-inspired approach.
- Performs k-anonymity "Have I Been Pwned" leak checks entirely from the browser so plaintext passwords are never transmitted; includes CI for deployment to Cloudflare Pages.

VIRTUAL EXPERIENCE & PROJECTS

Mastercard Cybersecurity Job Simulation — Forge

June 2026

Remote

- Simulated the role of a Mastercard Security Analyst to design and launch realistic, company-wide phishing simulation drills.
- Analyzed employee vulnerability data to identify high-risk departments and security gaps across the enterprise.
- Developed targeted corporate security awareness training materials based on data insights to mitigate future phishing risks.
- Forge certificate

TECHNICAL SKILLS

Security: Security Monitoring, Threat Detection, Incident Response, Malware Analysis, Network Security, Vulnerability Assessment

Security Tools: Wireshark, Burp Suite, PESTudio, VirusTotal, Nmap, Splunk (Fundamentals), TryHackMe Labs

Operating Systems: Linux, Windows, Active Directory Administration

Programming: Python, Bash, SQL, Dart

Development: Flutter, Firebase, REST APIs

Developer Tools: Git, GitHub, VS Code, PyCharm

Machine Learning: TensorFlow, Scikit-learn, Computer Vision, Ensemble Learning
