Verify

System Administration and IT Infrastructure Services (Google / Coursera | Jan 2026)

Verify

IT Security: Defense against the digital dark arts (Google / Coursera | Dec 2025)

Verify

Projects & Lab Experience

Multi-Platform System Monitoring & Troubleshooting Lab | Wazuh, Suricata, Sysmon, VirtualBox, Kali Linux | GitHub

2026

- Architected 3-VM lab (Windows Server, Linux, Kali) on NAT networks; diagnosed and resolved DNS, DHCP, TCP/IP failures to ensure cross-platform connectivity and uptime
- Deployed centralized logging and real-time alerting; authored 20+ troubleshooting runbooks for recurring anomalies, standardizing resolution and reducing investigation time

Web Infrastructure & Reverse-Proxy Access Lab | SafeLine WAF, DVWA, Nginx, Kali Linux | GitHub

2026

- Deployed reverse-proxy infra for backend apps; troubleshot HTTP/HTTPS, SSL/TLS and upstream failures to maintain availability and validate access paths
- Configured rate-limiting and access-control via log analysis; documented exceptions and workflows in knowledge base for rapid team reference

Experience

Freelance Flutter Developer

Jun 2024 – Feb 2025

Independent Contractor

Remote

- Built Flutter apps with Firebase Auth/Firestore (least-privilege) — client delivery & async support

Languages

English — C1 (TOEFL 103/120) | Bengali — Native
